

"Specialized In Heat
Treatment Solutions For
All Critical Parts
& Components."

POOJA HEAT TREAT

A Name You Can Trust

About Us -

Established in [2003], **Pooja Heat Treatment** is a trusted name in the field of metal heat treatment services. Based in [Bhosari , Pune], Industrial Area, we specialize in providing high-quality, precise, and reliable heat treatment solutions for industries, including automotive, manufacturing, aerospace, tool & die, and heavy engineering.

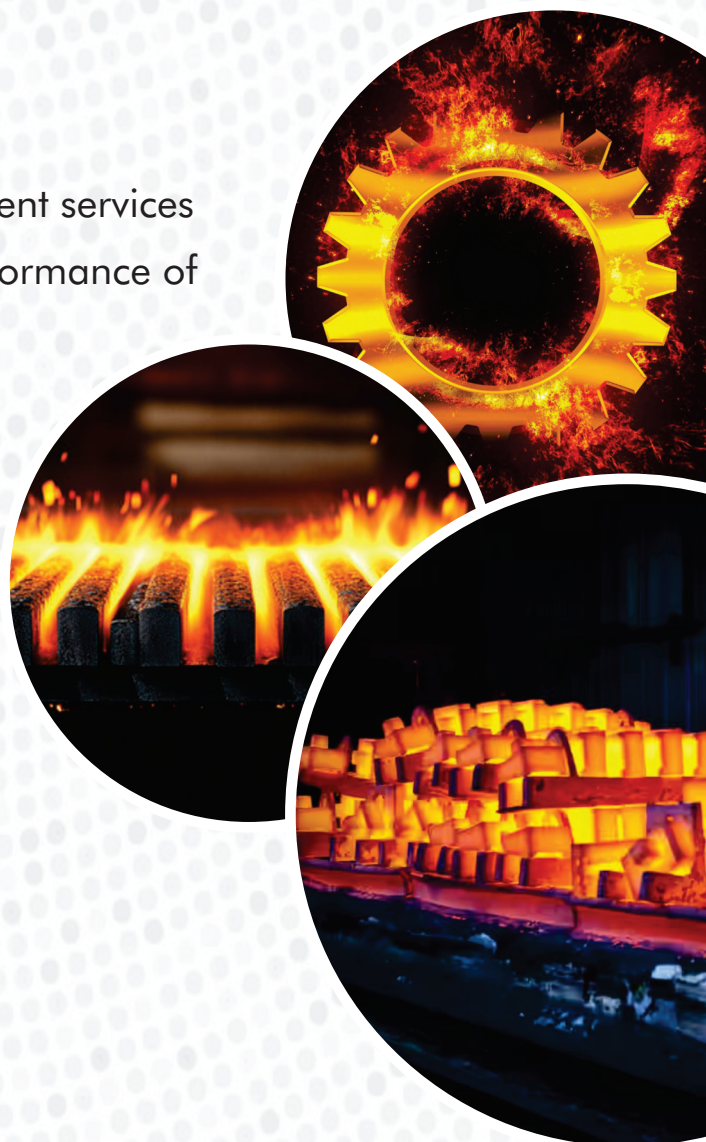

With years of industry expertise and a customer-centric approach, we are committed to delivering consistent quality, on-time service, and innovative solutions tailored to our clients' specific requirements.

OUR MISSION

To provide high-performance heat treatment services that enhance the durability, strength, and performance of metal components, while maintaining top-tier quality standards and environmental responsibility.

OUR VISION

To become a leading and innovative heat treatment solutions provider in India, known for quality, integrity, and customer satisfaction.

MACHINERY

1. Pit Type Gas Carburizing Furnace 2 NOS
2. Tempering Furnace 1 NOS
3. Washing Tank
4. Rockwell Hardness Tester
5. Portable Hardness Tester
6. Data Logger Graph
7. Cut Off Machine
8. Double Disk Polishing & Lapping Machine

OUR SERVICES

We offer a comprehensive range of heat treatment processes, including:

- ❖ Case Hardening
- ❖ Only Carburizing
- ❖ Hardening & Tempering
- ❖ S/R Hardening & Tempering
- ❖ Annealing
- ❖ Normalizing
- ❖ Stress Relieving
- ❖ Shrink Fitting

Custom processes can be developed based on client needs.

INDUSTRIES SERVED

- ❖ Automotive & Auto Components
- ❖ Engineering & Fabrication
- ❖ Aerospace
- ❖ Oil & Gas
- ❖ Tool, Die & Mould Industry
- ❖ Agricultural Equipment
- ❖ Railway & Infrastructure

TESTING FACILITY

We follow strict quality control procedures at every stage of the process. Our facility is equipped with advanced testing equipment such as:

- ❖ Rockwell Hardness Tester
- ❖ Portabel Hardness Tester
- ❖ Data Logger Graph
- ❖ Cut off Machine
- ❖ Double Disk Polishing

All processes adhere to relevant industry standards (IS, ASTM, DIN).

WHY CHOOSE US?

- ❖ Timely Delivery & Cost-effective Solutions
- ❖ Skilled Workforce & Experienced Technicians
- ❖ State-of-the-art Equipment
- ❖ Tailor-made Solutions for Specific Applications
- ❖ Commitment to Customer Satisfaction

INFRASTRUCTURE

Our facility includes **[Pit type of heat treatment furnaces]** (batch and continuous), temperature-controlled chambers, and material handling systems to ensure uniformity and efficiency.
